New Brunswick Environmental Network	10+ We are a network organization, with about 110 member organizations around the province, as well as hundreds of other stakeholders and partners. We facilitate cooperation on environmental issues and especially work in the space where our member groups' interests overlap. Currently, ocean literacy is not one of those areas, however we do coordinate the Sustainability Education Alliance of New Brunswick (working to create a culture of education for sustainable development in NB), the Watershed Caucus (made up of about 25 watershed groups in NB), and the Biodiversity Collaborative (working to advance biodiversity conservation and protection in the province), among many other initiatives.
